TERMS OF SALE

All bids are entered as soon as received. When two or more bids are the same, the first received gets the lot. When two or more ultimated bids are received on a certain lot, the first one received gets the lot at an advance of 5% over the highest bid.

Your bids are as binding as any contract, so do not bid unless you are sure you can pay for what you bid upon.

When we receive your bids, we act as your agent, and buy the lots for you as much under your bids as the next highest bid will permit.

Bid by number of lot, and at SO MUCH PER PIECE, unless the lot is described as a set, in which event, bid FOR THE SET.

Lots are sold as catalogued, and no lot is broken under any circumstances. If there are ten pieces i the lot, and you want to offer $1.00 for the lot, make your bid 10 cents per piece.

Do not bid less than bullion value of silver and goil coins. A silver coil is always worth its bullion value, and considerable over this as a rule, and gold coins are worth dollar for dollar. All coins are guaranteed genuine in this sale.

The terms of auction sales are strictly cash. Parties unknown to us must send a deposit covering at least 25% of their bids, or send satisfactory references, otherwise we cannot accept their bids, as we cannot be expected to ship coins to parties whose good standinng is unknown to us. A 5 per cent charge will be made for packing and shipping on any coins purchased.

There will be no printed lists of prices for this sale, but we will furnish priced catalogues upon remittance of $2.00.

PLEASE MAIL YOUR BIDS EARLY. ALL BIDS MUST BE IN THE DAY BEFORE THE SALE.

WE JUST DISCOVERED AN 1817 OVER 14 U. S. HALF DOLLAR

* * *

This coin came to us in a collection which had been in the possession of this one particular family since 1846.

* * *

It is **EXTREMELY FINE**, showing practically no wear.

* * *

THERE IS A DIE BREAK CLEAR ACROSS THE OBVERSE, from the border to the right of the "7" up through the bust to the border at top.

* * *

This clearly shows that the die was cracked when they struck the "7" over the "4," and in all probability the die broke in half when this coin was struck, which would explain the reason for this coin being heretofore unknown. Then, too, the fact that this coin has been in the possession of one family since 1846, and probably longer, would offer an explanation. At any rate, with the die broken in half, it was of no further use, and they took the 1813 die, which gave the 1817 over 13 variety, which is comparatively common.

Another strange coincidence is, that the REVERSE seems to be also an entirely new one, in as much as the "I" in UNITED and AMERICA both have a broken foot, the right half of the serif being broken away diagonally.

* * *

Additional interest is attached to this find, as it comes almost on the heels of the publication of Mr. M. L. Beistle's book on U. S. Half Dollars. For, as he states in his book, he has examined literally thousands of half dollars, and had at his disposal the finest collctions of U. S. Half Dollars, as well as able counsel of recognized authorities on numismatics.
